Organized International e-Conference on Recent Advances in Material Science and Nanotechnology (RAMAN-2021) during 7-9 February, 2021 in collaboration with P. N. College, Pusad.

The Department of Physics, Arts, Commerce and Science College, Maregaon & P. N. College, Pusad jointly organized the international e-Conference on Recent Advances in Material Science and Nanotechnology (RAMAN-2021) during 7-9 February, 2021. RAMAN-2021 brought together a total of 273 participants, including 29 eminent experts in the field. The expert talks contributed to the advancement of knowledge in the field. The participants consisted of researchers and faculties who presented their work through oral presentations and poster presentations. The conference was chaired by Dr. A. N. Gharde, Principal, Arts, Commerce and Science College, Maregaon. Dr. N. R. Pawar, the Head, Department of Physics at Arts, Commerce and Science College, Maregaon. College, Maregaon, served as the convener of the e-conference. His dedication and leadership played a pivotal role in ensuring the success of the event. The participants had the opportunity to present their research through oral and poster presentations. The quality of presentations was exceptional, showcasing the latest advancements in the field. The organizing committee recognized the efforts of the participants and awarded the Best Oral Presentation and Best Poster Presentation. Distinguished experts and scientists delivered talks during the conference, focusing on their own research that was directly relevant to the conference's theme. These talks provided valuable insights and inspired the participants to delve deeper into their respective research areas. RAMAN-2021 provided a platform for researchers and experts to exchange knowledge and share recent advancements in the fields of material science and nanotechnology. The conference aimed to foster collaboration and encourage further research in these areas. Overall, RAMAN-2021 was a successful e-conference that facilitated the dissemination of research, brought together experts in the field, and recognized the efforts of participants through the Best Oral and Poster Presentation Awards.

Organized International e-Workshop on Graphene and Related 2D Materials, Processes and Applications (GR2DMPA-2021) on 11 September, 2021 in collaboration with IQAC SGB Amravati University & Department of Physics, Prof. Rajendra Singh (Rajju Bhaiya) Institute of Physical Sciences for Study & Research, Veer Bahadur Singh Purvanchal University, Jaunpur.

About the Workshop

To enhance synergy within the community and build toward a strong future in graphene and 2D materials, Department of Physics, Arts Commerce and Science College, Maregaon in association with IQAC SGB Amravati University and Prof. Rajendra Singh (Rajji Bhaiya) Institute of Physical Sciences for Study and Research, Veer Bahadur Singh Purvanchal University, Jaunpur will be hosting a VIRTUAL workshop on Graphene and Related 2D Materials, Processes and Applications. The workshop will bring together leading experts and young researchers involved in the structural and physical properties, synthesis, characterization, transfer and integration of graphene and other related 2D materials and their applications in the growth of graphene into metallic substrates, in graphene transfer and doping, in graphene-based device fabrication, and in theoretical investigations of the properties of graphene.

The aim of this Workshop is to explore new knowledge and idea among the academicians and research scholar about the emerging materials and their scope in the advancement of technology for the betterment of mankind and society. The 2D graphene has been a spectacular shining star on the horizon of Nanoscience and Nanotechnology over the years. Hence there is need to introduce the broad in-depth fundamental information about 2D material's scope, properties and applications in modern science and technology.

The Workshop topics include

- Graphene growth, synthesis, and integration (CVD, Epitaxy, Chemical Exfoliation, etc)
- Chemistry and Growth Kinetics of Graphene and 2D materials
- Transfer of graphene to host substrates
- Graphene properties (optical, electronic, structural, etc.)
- Charge carrier transport
- Impurity doping
- Interfaces and Excitons
- Interlayer and intralayer heterostructures of large area graphene
- Computational and theoretical approaches
- Device integration of large area graphene
- Large area production for industrial applications
- Applications of graphene (e.g. transparent electrodes, sensors, transistors, OLEDs, OPVs, Energy, Photonics, Spintronics, Biomedical applications, etc.)
- Graphene-like 2D nanomaterials, heterostructures and superstructures
